

FUUSM COVID Guidelines as of April 2022

1. Masks will be optional for Sunday church services and other events in the church and RE building starting immediately. If the community case rate 10 day average exceeds 5% in Washington and Wood counties, then mask will be required until the number goes below 5%. Updates will be written in the weekly announcements. Also, there will be signs on the foyer doors - "Masks Optional" or "Masks Required".
2. Please continue to sign in when entering either building.
3. If you have traveled outside the area to a location where the community rate is 5% or above, then please mask up.
4. If you are not feeling well - FLU or COVID symptoms, please stay home and attend by Zoom.
5. If unmasked, please try to maintain social distancing if possible.
6. Wash/sanitize hands prior to eating or serving food (common food handling practice even before COVID).
7. If you are not current with your vaccinations, then we strongly encourage you to get vaccinated or to mask up when indoors for your own protection.
