The Green Sanctuary Committee of the First Unitarian Universalist Society of Marietta, partnering with the Faith-Based Initiatives group of Mid-Ohio Valley Climate Action, present a screening of *Groundswell Rising*, followed by discussion with other Ohio and West Virginia groups responding to the fossil fuel industry in our area. The film is a transcendent tale of epic proportions where ordinary people are making a choice to stand up and protect their communities and children's future. Emmy Award-winning Resolution Pictures captures the passion and courage of people engaged in a David and Goliath confrontation. They stand together, challenging a system that promotes profit over health. We meet mothers, fathers, scientists, doctors, farmers, and people from all sides of the political spectrum taking a hard stand against energy extraction techniques not proven to be safe. With the oil and gas industry's thrust to expand fracking seen as a moral and civil rights issue, this provocative film documents a people's movement, a groundswell rising.

Light refreshments will be provided.
