

MEETING TO DISCUSS IMPACT OF INJECTION / DISPOSAL WELLS

MEETING DATE SEPTEMBER 14<sup>TH</sup>, 2021 STARTING @ 6:00PM

LOCATION: "THE FARMERS DAUGHTERS & SON, LLC"

610 GOOSE RUN ROAD MARIETTA (PAST BROUGHTON'S). TURN LEFT UP HILL

- Hors d' Oeuvres / beverages
- Discussion of economic impact of local oil and gas producers resulting from "flooded" wells from injection / disposal wells.
- Discussion of impact to landowners with wells on their property and mineral rights.
- Discussion of potential contamination of our fresh potable water.
- Discussion of environmental threats of materials being pumped into injection / disposal wells.
- Concerns regarding barge transportation of wastewater being barged on the Ohio River.

We invite you to attend and will welcome all viewpoints. We need facts in an effort to at least temporarily stop the wastewater from other states as well as Ohio to be pumped into disposal wells to stop the ruination of additional oil & gas wells and protect our groundwater.

Please call Rampp Company @ 740-373-7886 and confirm you will be attending. You are welcome to bring guests. We would appreciate knowing how many attendees you will have with you, allowing adequate beverages, tables and chairs.

We will extend invitations to our local media, our County Commissioners, Township Trustees, Local Mayors, our state elected officials and Water Departments.
